

**2020** was really rough year for the wedding industry in general and invitations are no exception. Many weddings were cancelled, postponed, or downsized to the point where no printed invitations were needed. I did manage to scrounge up one review for this particular year:

The Invitation Place was so helpful with save-the-dates, invitations, menus, programs, seating chart cards and, and and! Julie made it easy and FUN! I would totally recommend the Invitation Place for a wedding or any other occasion.

## **2019**

Julie was very professional and helpful in picking out invitations, thank you notes, etc. for my daughter's wedding. All the products that we ordered were beautiful and high quality. Julie made the entire process easy. Would highly recommend The Invitation Place to anyone planning a wedding.

Very easy and extremely helpful. Everything is clearly mapped out and no hidden fees anywhere. Free estimates and quick execution. Can do a complete service of mailing or can do a simple order. Easy to custom most pieces. A large variety. Way easier than online.

We used The Invitation Place for our wedding invitations and are still receiving compliments on how pretty they were! Julie was so informative and helped us pick out the perfect invitations for our wedding! We also used The Invitation Place for the programs for the ceremony. We were so thankful for Julie's suggestions for wording and the way the programs were written. We are so happy that we worked with Julie and would highly recommend using The Invitation Place for your event!!

Working with Julie made the invitation design/wording/everything process so straightforward. She has so many design options available (literally binders and binders full!!), and can help you through questions about wording, etiquette, other inserts to go with your invites, how many to order, and just about any other question you might have! Her options also cover a variety of prices, and different features that can cost more or less, to fit whatever your budget is. We did our save the dates and invitations through Julie, and it was wonderful. Our invitations were BEAUTIFUL. Absolutely would recommend!!

Julie was incredibly helpful and professional. She is clearly an expert and knows her way around design and lettering, this is exactly why even though we lived out of state we chose to work with her! Our wedding invitations and programs were better than we expected and truly set the tone for our wedding. Julie was quick to respond to any questions we had and knew exactly how to word and format what we were unsure about. Her pricing was extremely fair and she had so many unique options to choose from for wedding invites, stationery and programs! We have already recommended her to several people and look forward to working with her again very soon!! Cannot thank her enough for her incredible work and kindness! Highly recommend!!!

Working with the invitation place made my job so much simpler! Julie is professional and knows exactly how to word your invitation for how casual or formal your event is. She was able to custom order the exact pockets I wanted for our invitations and they were everything I dreamed of and more. The invitations were of high quality, very affordable and came quickly. We also got our seating chart from the Invitation Place. I received so many compliments on both my invitations and seating chart. She responds quickly and answers all questions thoroughly. You wont be disappointed with anything Julie does for you! Will be using her for any future events I have!
